

Are you or your organization interested in volunteering at the BioBlitz event? Become a **BioBlitz Ambassador**!

Everyone knows that a big event doesn't happen without the amazing support staff of volunteers from the community. There are many opportunities for individuals and organizations/businesses to help out during the event.

Ambassador is the BioBlitz word for **volunteer**. Ambassadors support the safety, health, and fun of the visitors and staff at the BioBlitz through event support. The BioBlitz team is working hard to organize EVERYTHING BioBlitz and identifying jobs that will be needed. Please let us know if you or your organization would like to help with fun tasks such as:

Traffic/parking control	Shuttling supplies	Event photography
Staffing information stations	Technology support staff	First aid assistance
Staffing registration table	Set-up and take-down	School group guides
Delivering food to staff	Facility management help	Scientists support staff
	Security	Data entry

Online Ambassador registration is now available at <http://www.volunteersoaz.org>. Just search for **BioBlitz** in the month of **October** to find opportunities. As the coming months unfold we will be refining Ambassador needs, so please continue to check if you don't find a good fit for your skills. [Email](#) us for more information. We look forward to your participation at the Saguaro BioBlitz!
